

Happy New Year from Nashville Violins

Newsletter:
January, 2016

Nashville Violins

We wish everyone all the best with their New Year's resolutions this year. Please let us know if we can help in any way. It brings us so much joy to see the happy faces when we hand an instrument that we just worked on back to another satisfied customer. Our goal this year is to make sure that every customer has a happy face, from the first time they pick up an instrument, and every time.

Looking forward to another great year!

Thank you,
The Musical Staff of
Nashville Violins

Greetings!

It's that time of year again when everyone starts off with New Year's resolutions. On top of eating too many sweets over the Holidays, many of us took a little too much time away from our instruments. Be sure to include them in your resolutions this year. We have some great tips in our newsletter this month!

This Year I Will...

Take better care of my instrument:

Stop by Nashville Violins for a FREE evaluation! We can let you know if we spot any open seams, make sure the bridge and other adjustments are where they should be, and advise on string choices, etc. A simple checkup once in a while can help avoid costly problems down the road.

Free evaluations

Learn to play the violin:

Nashville Violins has teachers for every instrument and ability. Whether you are just getting started or need a little extra encouragement, be sure to check out our [teacher page](#) for more information on [lessons](#).

Look up the space movie everyone's talking about:

OK, we can't really help if you don't know anything about galaxies far, far away, but we do have all of the latest books on the Star Wars Saga as well as tons of other books. We can even show you what a "Wohlfahrt" is!

Does this G string make my bridge look big?

Just about every major string manufacturer has new strings on the market. We have them on demo instruments so you can try a few out in the shop before you purchase.

Practice!

Does anybody really like to practice? Probably not, but you know what they say when you don't! Check out the [Musician's Practice Planner](#) for some good tips on organizing your practice time. We also have some great new [books](#) that can help keep your practice time fun! One tip that I tell my students is that they only need to practice on the days that they eat. Sometimes we are just too sick to eat, but just about everybody can find the time to eat, and you can get a lot accomplished in the same amount of time or less if you stick to productive practice with realistic goals.
